

Ashutosh Prajapat

Full Stack Web Developer

Bhopal, MP • +91 8602865384 • ashutoshprajapat2932005@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL OBJECTIVE

Detail-oriented Computer Science & Engineering sophomore with practical experience building responsive full-stack applications using the MERN stack. Proficient in Java, JavaScript, and RESTful API architecture. Seeking a software engineering or web development internship to solve real-world problems and contribute to scalable codebases.

TECHNICAL SKILLS

- **Languages:** Java (Core), C, JavaScript (ES6+), HTML5, CSS3
- **Libraries/Frameworks:** React.js, Node.js, Express.js, Passport.js, Tailwind CSS, Material-UI
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Vercel, Render, Postman, Firebase, Supabase
- **Core Concepts:** Generative AI Integration, AI Agents, Function Calling, Real-time Web Applications

PROJECTS

Agro-aid-ai | GenAI-Powered Farm Management System [\[Live Demo\]](#)

Jan 2026 – Present

- ▶ **Engineered a smart farm management ecosystem** using React.js, Node.js, and MongoDB to help users digitally map, track, and optimize agricultural plots.
- ▶ **Architected autonomous AI agents using Gemini Function Calling**, enabling the model to intelligently parse unstructured user intent and execute deterministic backend functions to update database records dynamically.
- ▶ **Developed an automated cron scheduling system** linked to the AI's function calls to dynamically set reminders and alerts for critical irrigation and chemical spray cycles based on historical data.
- ▶ **Integrated a real-time Live Voice Assistant interface** within the React frontend, leveraging advanced speech-to-text and text-to-speech processing to allow hands-free, voice-driven farm logging.
- ▶ **Implemented secure user authentication and data isolation using Firebase Auth**, mapping time-series agricultural metrics and schedules to unique user profiles.

Tech Stack: MongoDB, Express.js, React.js, Node.js, Gemini API, Firebase Auth, Supabase (PostgreSQL)

Wander-Lust | Full-Stack Web Application [\[GitHub\]](#) [\[Live Demo\]](#)

Jan 2026 – Feb 2026

- ▶ Architected a responsive full-stack travel marketplace utilizing the MERN stack to manage dynamic listings and user interactions.
- ▶ Designed and optimized secure RESTful APIs for CRUD operations to ensure seamless data flow between client and database.
- ▶ Engineered relational MongoDB schemas using Mongoose to cut query latency and handle complex user review structures.

Tech Stack: MongoDB, Express.js, React.js, Node.js, Passport.js, Git, Render

Weather Forecasting App | React.js & Material-UI [\[GitHub\]](#) [\[Live Demo\]](#)

Feb 15, 2026

- ▶ Built a responsive real-time dashboard using React.js and Material-UI.
- ▶ Integrated the OpenWeatherMap API to fetch and display live weather data based on user location.
- ▶ Deployed on Vercel with automated CI/CD pipelines via GitHub for seamless version control and rapid production updates.

Tech Stack: React.js, Material-UI, Axios, OpenWeather API

EDUCATION

Lakshmi Narain College of Technology (LNCT), Bhopal | 2024 – 2028

- Bachelor of Technology in Computer Science & Engineering
- **Key Coursework:** Data Structures & Algorithms (DSA), Java, IoT, Operating Systems
- **CGPA:** 7.38

Shramodaya Awasiya Vidyalaya, Indore (CBSE) | 2021 – 2023

- *Class 12 (PCM)* **Score: 78.4%**
- *Class 10* **Score: 88%**

CERTIFICATIONS

- **Web Development & Languages:** Full Stack Web Development (Apna College); Fundamentals of Java Programming (Coursera)
- **Artificial Intelligence:** Generative AI Fluency (FutureSkills Prime); Introduction to Modern AI (Cisco); Apply AI: Analyse Customer Reviews (Cisco)
- **Cloud & Emerging Tech:** ServiceNow Agent Blazer; Introduction to IoT and Digital Transformation (FutureSkills Prime)
